**Subject:** Commencement of Fox Baiting Program in KNP

Greetings All,

Where relevant, could you please forward this notification amongst your members, staff and sub-  
lessees...

*Commencing Friday 11 July, NPWS Alpine Ecologist - Dr Ken Green, will commence his annual fox baiting program in the alpine and higher subalpine areas of the park. The program will include the use of 'Fox-off' 1080 baits (sodium monofluoroacetate) which are buried at regular intervals in the snow and subsequently monitored for up-take and replacement; all bait sites are recorded for relocating and monitoring. The program will run for approximately 10 weeks. The aim of the program is to reduce fox numbers that prey upon threatened species i.e. Mountain Pygmy-possum and Broad-toothed Rat.*

*Please direct any inquiries about this program to Dave Woods, Resorts Environmental Liaison Officer, on: 64505616, mobile 0418689250 or email: [dave.woods@environment.nsw.gov.au](mailto:dave.woods@environment.nsw.gov.au)*

**Dave Woods**
