SLOPES - NPWS - Winter Waste Collection Service - Winter 2015 guidelines - Update

SLOPES <slopes.au@gmail.com>
Bcc: frank.zipfinger@gmail.com

25 June 2015 at 09:25

Dear SLOPES Members and Associates

The NPWS waste collection guidelines for this winter were set out in our email of 22 April - see below.

Following suggestions made in response to NPWS by one of our Clubs, the guidelines have since been updated to make them clearer.

We understand there is no change of substance.

The updated guidelines are attached and can be found also on the NPWS webpage at this link:

<http://www.environment.nsw.gov.au/resources/alpineresorts/150391-winter-waste.pdf>

In addition, attached is an information sheet used by a NPWS representative at the Village meetings last weekend in relation to food waste materials which Clubs might find useful.

Regards

To:

Dear SLOPES Members and Associates

Attached is a copy of the 2015 winter season guidelines for Perisher and Smiggins just received from NPWS.

It can also be found here: <http://www.environment.nsw.gov.au/resources/alpineresorts/150177-winter-waste.pdf>

Please note this year there are 2 types of bags:

1. **CLEAR** - for bottles, cans and plastics and for paper and cardboard
2. **BLACK** or **GREEN** (heavy duty) - for all other garbage.

Alternatively, paper and cardboard may also be flattened and stored within another box or tied together (rather than being put in a clear bag)

The guidelines refer to organic food waste being dealt with in a separate waste stream. This is a new initiative to be introduced by NPWS for the first time in 2015. Details from NPWS are still to be receive and will be circulated once available.

Regards

Frank Zipfinger

Winter Waste Collection Service Perisher & Smiggins

Operation

From: First Wednesday before the start of the ski season

To: First Wednesday after the end of the ski season

Waste Streams

Bottles, Cans & Plastics

NPWS issued clear plastic bags

Drink containers

Garbage

Garbage

Heavy duty black or green garbage bags

Frequency

Each Waste Stream will be collected every 2nd day.

Don't have loose/ unsecure waste

Don't leave waste on the snow

All other waste should be taken to Jindabyne landfill, this includes; whitegoods, ski gear and building waste

Cooking Oil

Stored and sealed in original container

Paper & cardboard

Paper & Cardboard

Flattened and stored within another box or tied together

Food organics

Organic Food Waste

NPWS issued compostable bin liner

Recycling

Yes

- Tie bags with a knot
- Maximum bag weight 15kg
- Clean recyclables

No

- Sharps
- Waxed paper or cardboard
- Broken glass and crockery
- Nappies
- Light globes
- Fluorescent tubes

FOOD WASTE MATERIALS ONLY

- ✓ Bread & pastry
- ✓ Cereals & flours
- ✓ Dairy products
- ✓ Meat & poultry
- ✓ Seafood
(no oyster or scallop shells)
- ✓ Fruit & vegetables
- ✓ Food soiled paper napkins
(Must be from food consumption,
