Dear SLOPES Members

This email from OEH is forwarded for your information.

We have sought clarification from OEH on a few issues following the second round of consultation meetings on 18 and 19 April.

In short:

1. the summary of stakeholder feedback from the meetings of 18 and 19 April is expected any day now. OEH says it will be uploaded promptly to the OEH website once received. Apparently it has taken longer to produce the report due to the much more specific feedback received in round two.
2. Due to this delay, OEH extended the date for submissions to 31. Details for submissions (including the online form) and the link to the website updates are in the email below.
3. OEH suggests (without limitation) that stakeholders may wish to provide "more detail on the topics discussed in the workshops including what makes a world class resort, what will encourage year round visitation and what governance arrangements are best suited to encourage this". These issues have already been canvassed at length in the 2 rounds 1 and 2 meetings held to date.
4. as previously advised, market engagement is the next stage for OEH. OEH wants to determine "the most attractive and workable model to the market of operators in the field". In doing that OEH says it will discuss options rather than present a single option (there were 4 options as discussed at the round 2 meetings).

SLOPES will remain close to this process and will be making a submission to OEH on behalf of all Clubs by the 31 May closing date.

We will keep you informed.

Regards

Frank Zipfinger  
President

Dear Stakeholder

The Perisher Range and Charlotte Pass Village Management Review [website](#) has recently been updated. You will now find the following on the website:

- An invitation to make submissions in [Feedback to Perisher Range and Charlotte Pass Resorts Management Review](#). The date for close of submissions has been extended to 31 May 2016.

- A market timeline for engagement located in *New or Updates* and *Key Dates*.
- [Resource documents](#) from the April 2016 Workshops located in the *Document Library*.

A report from the second round of Stakeholder Workshops will be uploaded shortly.
